For the latter two cups are offered, besides a medal for the best gross score.

The amateur skating championship meet and carnival which was to be held at Morristown on February 22, but was postponed, was begun last evening at the Clermont Avenue Rink, Brooklyn. The stomach being too weak to digest it, the food remains until fermentation begins, filling the stomach with gas, and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic, and being an every-day occurrence, is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.

The championship hockey game between teams presenting the New-York Athletic Club and the Montclair Athletic Club, which was played last evening at the St. Nicholas Rink, resulted in a of 1 to 0. In the first half Roberts, the goal-keeper of the New-York Athletic Club, stopped the puck several times when a goal looked sure. Although the Montclair players were outclassed they played a good game against the old cham-pions. At the close of the first half neither team

had made a goal.

In the second half the New-York team played together and on passes from Fenwick and Bogert Wallace succeeded in scoring a goal. Max Horn-feck tried several times in vain to get the puck past Roberts. Williams, Koehler and McBurney played a good game for the Jerseytes. The line-up-

#### FIGHTING.

POOR SPORT AT THE LENOX ATHLETIC CLUB "Gus" Ruhlin, of Akron, Ohlo, met and defeated "Joe" Goddard, the "barrier" champion, in the fifth round of what was to have been a twenty-round bout before the Lenox Athletic Club last night. Both men stripped in apparently good condition, but Ruhlin had the call in the betting. This was certainly justified by his appearance, and from the outset he held his opponent cheaply. He evi-dently saw that Goddard could not offset his rushes, and from the beginning forced the fight-ing. The "barrier" champion went down fre-quently, with good cause, but toward the close of the contest he dropped without cause, and was de-servedly disqualified.

The State Division is giving its support to the bell introduced in the Assembly by C. F. Collins and in the Senate by S. J. Foley, pursuant to one of its constitutional objects, "to promote the general interests of cycling," and because the bill is drawn in the interest of public decemey, morality, legitimate sport and healthful athletics, and comes under the same class of legislation as that which rightfully forces the protection of the health and lives of mechanics and laborers by the erection of scaffolding and other safeguards, prevents the employment of immature and growing children in factories, protects the acrobat with netting and makes it illegal to attempt suicide. The bill is almed to put a stop to cycling "exhibitions" more detrimental to health than a plague, and to prevent men being tortured beyond their powers of endurance.

informed as to the merits of the bill and the necessity for its passage.

They were noticed pedalling up the avenue, making slow headway against the wind and snow. Each was muffled in reweaters, and each had his feet wrapped in gunnysneks. They probably did not travel far. After so much had weather it is wise to look over the hicycles. A little cleaning and work now may save considerable trouble and expense later.
